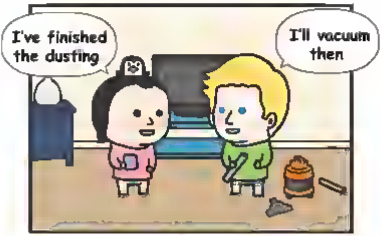
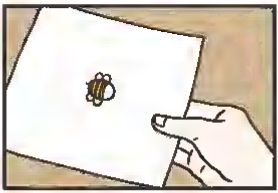
It made us feel better because we didn't want to hurt the bee

The bumble bee was as big as a thumb and it was flying towards Mev with a very loud sound.

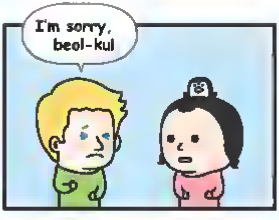


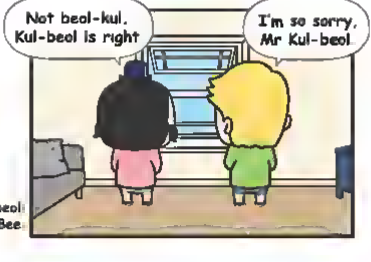
We were cleaning aur home.

Suddenly a really big bumble bee came inside the room through an open window.

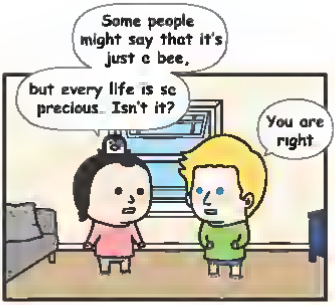


Mev carefully picked it up
using a piece of paper
and let it go out the window.

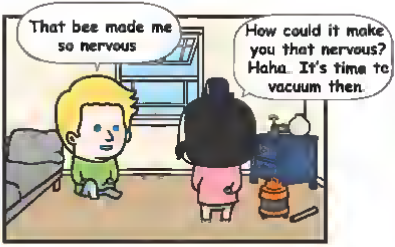




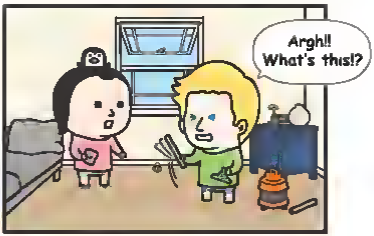
We were feeling very sorry for the bee and just watched him



Some people might say that it's just a bee,
but every life is so precious. Isn't it?
You are right



That bee made me so nervous
How could it make you that nervous? Haha. It's time to vacuum then.



Mev was very surprised sa he swung the pipe af the vacuum cleaner, then...

...the pipe hit the bee and it fell to the floor, it saunded like a metal baseball bat hit a baseball very hard.

Cleaning Day

It was a very sunny weekend.

I need to take a rest to calm myself, so cleaning is finished today.

Do you want to get hit like the bee?

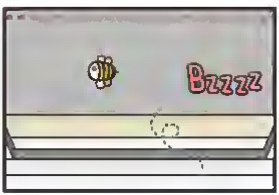
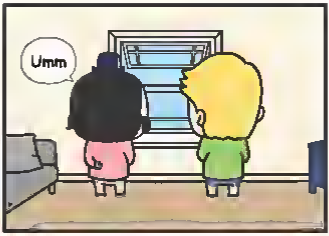
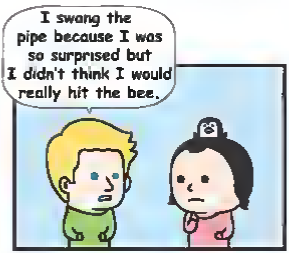
But luckily, ...



... the bee moved his wings again and flew away.



Then it just dropped on the sill and didn't fly away.



We couldn't help being surprised at how perfect the timing was.

The big bee was lying still but wriggled its body sometimes.
